Live Stream Package 1

A single locked-off camera shot shown alongside a feed of the on-screen presentation which is recorded and sent to a streaming service of your choice (e.g. Zoom, YouTube, Facebook Live etc)

Live Stream Package 2

Up to four remote controlled cameras vision mixed with the on-screen presentation which is recorded and sent to a streaming service of your choice. Also includes equipment and technicians to facilitate bringing remote presenters into the conference via Zoom or Teams.

Live Stream Package 3

As Package 2, but with the addition of a manually operated broadcast-quality camera able to produce smooth tracking shots. This package is recommended when you want smooth, close-up shots of presenters who need the freedom to walk around the stage.
